

Basketball Shoot

You'll need:

- A basketball hoop
- A basketball or large bouncing ball
- Sidewalk chalk

Set up and play:

- Mark the "free-throw line" on the ground in front of the hoop with sidewalk chalk. To make the game more interesting, mark three to five spots to shoot from around a semi-circle or rectangle.
- Players try to throw the ball through the top of the hoop. Two out of three (or three out of five) baskets wins a prize.
