

## **Coin and Plate Toss:**

### ***You'll need:***

- A table (optional)
- Ten or more old plates (plastic are best)
- The same number of empty soda cans, rinsed out
- Coins or poker chips
- Duct tape or sidewalk chalk

### ***Set up and play:***

- Put some sand or small rocks in the soda cans so they don't tip over. Place a plate on top of each can.
- Place the plates in rows on the table or the ground.
- Mark a line on the ground about six feet from the table using duct tape or sidewalk chalk.
- Give each player three coins or poker chips.
- Players stand behind the line and throw coins onto the plate.
- If at least one of three coins lands and stays on a plate, the player wins a prize.
