

# Marble Shoot

## ***You'll need:***

- Five 1-inch marbles (shooters)
- One empty tin can, washed, lid removed
- Popsicle sticks
- Construction paper
- Tempera paint and brushes
- Duct tape or sidewalk chalk

## ***Set up and play:***

- Decorate the can with paper and/or paint.
- Place the can on its side on the ground with the open end toward the player. Push a Popsicle stick partway into the ground on either side of each can to prevent rolling.
- Mark a line on the pavement about six feet in front of the can using duct tape or sidewalk chalk.
- Players kneel behind the line and shoot the marbles into the can. Three out of five marbles in a can wins a prize.
