

“Target” Drop

You’ll need:

- A roll of pennies
- An empty container such as a can, flowerpot, or bottle
- A low stool or stepladder

Set up and play:

- Set up the stool or ladder on flat, stable ground
- Place the container on the ground in front of the platform
- Players stand on the stool or ladder and drop three pennies into the empty container below them. Two out of three in the container wins a prize.
- Recycle the pennies as needed.

Alternative:

Using waterproof ink, draw a round target about five inches big. Cut it out and glue it to the bottom of a pail. Fill the pail with water. Players stand on a stepstool and drop pennies into the bucket. Any penny that lands on the bull’s-eye wins a prize.
